WeChat ID: AndreiZernov

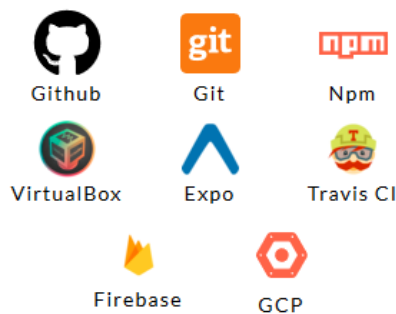

Front End Software Engineer with extensive knowledge of Networking and Cybersecurity Concepts. I have a Master's Degree in Business Management from Pacific National University and +5 years of working experience in an International Environment. My primary focus and inspiration for my studies are Web Development. In my free time, study UI, UX designs and App engineering. I am both driven and self-motivated and continuously experimenting with new technologies and techniques. Strive to better myself as a Web Developer, and the development community as a whole.
